

EPLEX7 DSP

**Thank you for downloading Eplex7 DSP FREE PLAYER**

### **HOW TO INSTALL VSTi PLUG-IN:**

01. Choose just one folder 32bit or 64bit depending on your host application (Cubase, Ableton, FL Studio etc.) if your host application is 32bit use 32bit folder, if 64bit use 64bit folder from this package

02. Do not install both folders! it will create conflict and error!

03. Copy files from folder (both .dll and instruments sub-folder) to VST folder of your host, it is usually:

C:\Program Files\Steinberg\VstPlugins

C:\Program Files\imageline/flstudio/plugin-ins/vst

and similar (depend on your host software)

If you don't know how to install VST plug-ins please open [www.youtube.com](http://www.youtube.com) and search how to install VST plug-in in "name of your host application"

### **HOW TO USE BONUS INSTRUMENTS in Eplex7 Free Player:**

01. Download / Buy additional & bonus instruments from [www.eplex7.com](http://www.eplex7.com)
